*Samtliga databaser har även fritextsökning som du hittar i **Basic search**.*

CINAHL och Medline

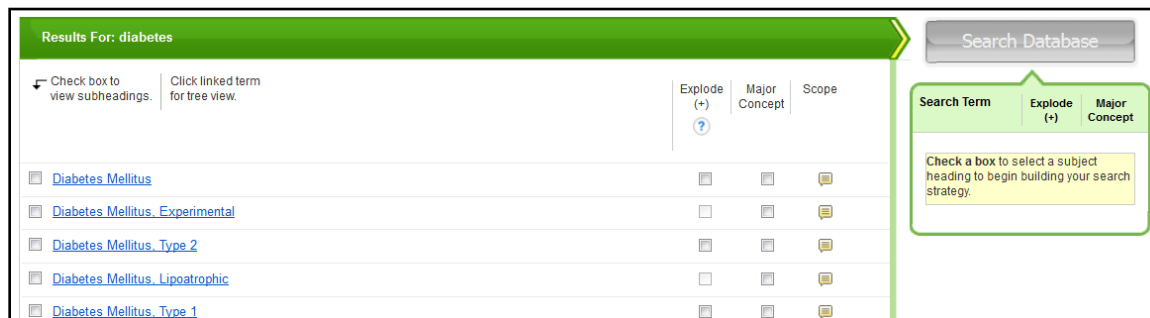

Denna guide visar hur ni använder funktionerna **Suggest Subject Terms** och **Search History** för att bygga en avancerad sökning i MEDLINE och CINAHL på EBSCOhost.

Skriv ditt sökord i sökrutan och markera rutan för att föreslå ämnesord (**Suggest Subject Terms**).

Klicka på **Search** (Sökknappen).

Detta tar dig till **The Headings Screen** (Listan för ämnesord).

The screenshot shows the EBSCO search interface. At the top, there are navigation links: "New Search", "MeSH 2015", "Publications", "Images", and "More". A "Sign In" button is in the top right. The main search area features the EBSCO logo on the left. A search bar contains the text "pregnancy". Above the search bar, there is a checkbox labeled "Suggest Subject Terms" which is checked. To the right of the search bar are two dropdown menus labeled "Select a Field (opti...". Below the search bar are two "AND" dropdown menus, each followed by another "Select a Field (opti..." dropdown. There are "Search" and "Clear" buttons to the right of the search bar. At the bottom of the search area, there are links for "Basic Search", "Advanced Search", and "Search History".

Kombinera de två söktermerna du har använt genom att markera rutorna och klicka på knappen för **Search with AND**.

The screenshot shows the "Search History/Alerts" page. At the top, there are navigation links: "Print Search History", "Retrieve Searches", "Retrieve Alerts", and "Save Searches / Alerts". Below these links are three buttons: "Select / deselect all" (checked), "Search with AND" (highlighted with a red box), "Search with OR", and "Delete Searches". Below the buttons is a table with the following data:

AMED

Denna guide visar hur ni bygger en avancerad sökning i AMED på EBSCOhost.

I AMED finns inte möjligheten till "Suggest subject terms". Här kommer ett förslag på hur du bygger en så exakt sökning som möjligt.

Använd de två sökfält som innehåller ämnesbeskrivning (**SU = Subject** och **KW = Keyword**) och kombinera dem med OR emellan. Klicka på Search.

Gör sedan samma sak med nästa ord.

The screenshot shows the EBSCOhost search interface. The search bar contains the term 'acupuncture'. Below the search bar, there are options for 'OR' and 'AND' search operators. The 'Search' button is highlighted in green. The interface also shows a 'Search History/Alerts' section with a table of search results.

Search ID#	Search Terms	Search Options	Actions
<input type="checkbox"/>	S1 SU tinnitus OR KW tinnitus	Search modes - Find all my search terms	View Results (147) View Details Edit

Kombinera sedan sökningarna med AND.

The screenshot shows the EBSCOhost search interface with a combined search. The search bar contains 'acupuncture' and 'tinnitus' with 'AND' operators. The 'Search' button is highlighted in green. The interface also shows a 'Search History/Alerts' section with a table of search results and a 'Refine Results' section.

För att snäva in sökresultaten till mera evidensbaserade artiklar lägg till en sökning med **Evidence-based** på samma sätt som övriga sökord.

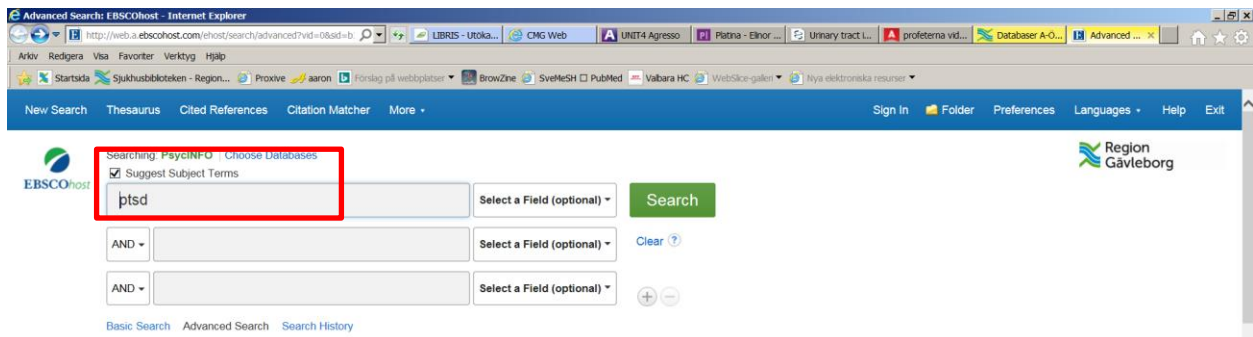

Hantering av sökresultat är likadant som för samtliga databaser. Se s. 3 för hur man begränsar sin sökning.

Se s. 8 **Skapa ett personligt konto** och framåt.

PSYCIDINFO

Denna guide visar hur ni använder funktionerna **Suggest Subject Terms** och **Search History** för att bygga en avancerad sökning i PsycInfo på EBSCOhost.

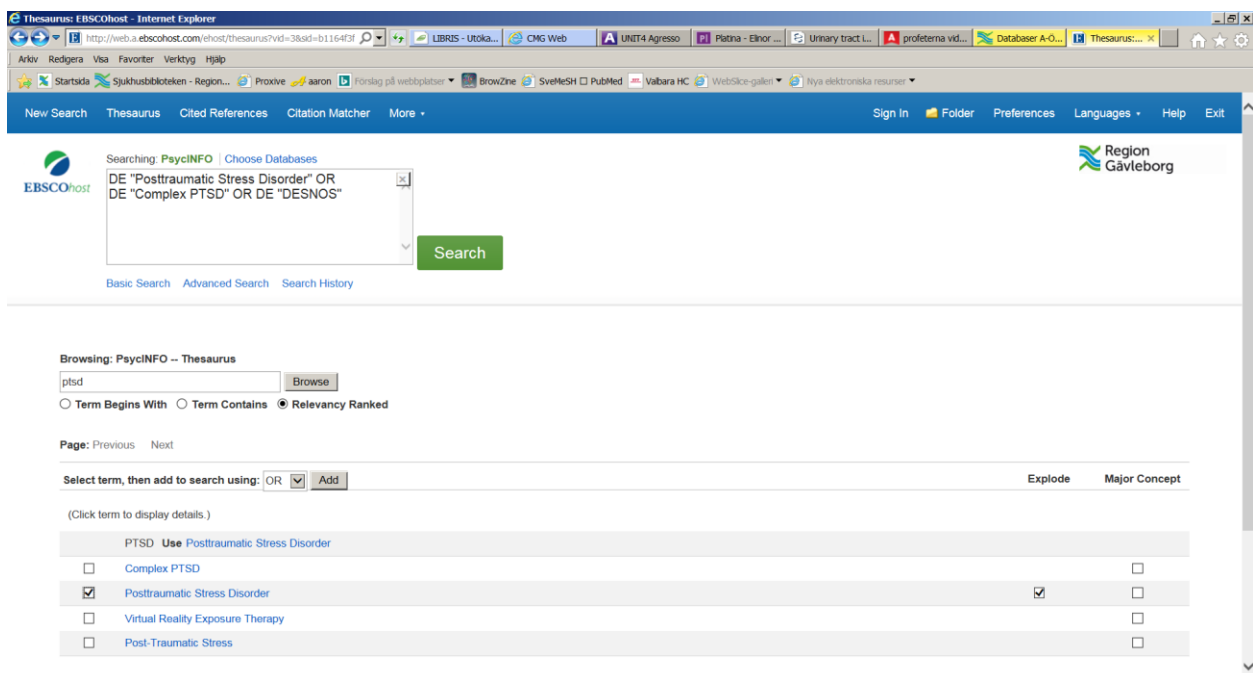

Skriv ditt sökord i sökrutan och markera rutan för att föreslå ämnesord (**Suggest Subject Terms**).

Klicka på **Search** (Sökknappen).

Systemet föreslår några ämnesord. Markera den term du vill använda och klicka på **Add**. Då följer även de termer med som ligger som mer specifika under den term du valt.

OBS! Om det finns ännu smalare termer måste du göra en ny sökning på dessa. Systemet tar bara med en nivå till när man söker med **Explode**.

Skicka iväg sökningen med **Search**.

Upprepa med övriga termer du vill söka på.

Markera de sökningar du vill kombinera och klicka på den operator som passar din sökning.

The screenshot displays a search interface with the following elements:

- Navigation links: Basic Search, Advanced Search, Search History.
- Section: Search History/Alerts
- Sub-sections: Print Search History, Retrieve Searches, Retrieve Alerts, Save Searches / Alerts.
- Control buttons: Select / deselect all, Search with AND, Search with OR, Delete Searches, Refresh Search Results.
- Table of search history:
